8500 - FOOD SERVICES

The Board shall provide cafeteria facilities in all school buildings where space permits, and will provide food service for the purchase and consumption of lunch for all students.

The Board shall also provide a breakfast program in accordance with procedures established by the Department of Public Instruction.

The food-service program shall comply with Federal and State regulations pertaining to the selection, preparation, delivery, consumption, and disposal of food and beverages, including but not limited to the current school meal pattern requirements of the United States Department of Agriculture(USDA) and the USDA's Smart Snacks in School nutrition standards, as well as to the fiscal management of the program. Further, the food-service program shall comply with Federal and State regulations pertaining to the fiscal management of the program as well as all the requirements pertaining to food service hiring and food service manager/operator licensure and certification. In addition, as required by law, a food safety program based on the principles of the Hazard Analysis and Critical Control Point (HACCP) system shall be implemented with the intent of preventing food-borne illnesses. For added safety and security, access to the facility and the food stored and prepared therein shall be limited to food service staff and other authorized persons.

The Board shall approve and implement nutrition standards governing the types of food and beverages that may be sold on the premises of its schools and shall specify the time and place each type of food or beverage may be sold. In adopting such standards, the Board shall:

- A. consider the nutritional value of each food or beverage;
- B. consult and incorporate to the maximum extent possible the Dietary Guidelines for Americans jointly developed by the United States Department of Agriculture (USDA) and the USDA and the United States Department of Health and Human Services; and
- C. consult and incorporate the USDA's Smart Snacks in School nutrition guidelines.

No food or beverage may be sold on any school premises except in accordance with the standards approved by the Board.

Dietary Modifications**Modifications Based on Compliant Medical Documentation**

Substitutions to the standard meal requirements shall be made, at no additional charge, for students who have received, from a health care provider with prescriptive authority in the State of Wisconsin, medical certification that the student's medical condition restricts their diet, in accordance with the criteria set forth in 7 C.F.R. Part 15b.

The individual making an initial request for such substitutions must inform the Food Service Director or Special Dietary Accommodation Coordinator that the student has a medical condition that restricts the student's diet, in accordance with the criteria set forth in 7 C.F.R. Part 15b. The School District will honor the request for sixty (60) school days. Within fourteen (14) school days after receiving the initial request, a health care provider with prescriptive authority in the State of Wisconsin must submit medical certification that the student's medical condition restricts their diet, in accordance with the criteria set forth in 7 C.F.R. Part 15b. The substitutions may be discontinued until such medical certification is received.

The medical certification must identify:

- A. the student's medical condition or symptoms of a condition that restricts one (1) or more major life activity or function;
- B. an explanation of how the condition or symptom affects the student's diet; and
- C. the food(s) to be omitted from the student's diet, and the food or choice of foods that must be substituted (e.g., caloric modifications or use of liquid nutritive formula).

IMPLEMENTATION AND DISCONTINUATION**Review**

Upon receipt of a request for a special dietary accommodation, the Food Service Director or Special Dietary Accommodation Coordinator shall review the request to ensure it is supported as required by Federal law and District policy.

Implementation

When the need for a special dietary accommodation is supported by a Medical Statement for Special Dietary Needs signed by a State authorized medical authority, the District will offer a reasonable modification that effectively accommodates the student's disability. Following USDA Child Nutrition Program regulations, the School District may consider factors such as cost and efficiency and is not required to prepare a specific meal, provide a specific brand of food, or provide a meal beyond the meals provided to other students.

For students who have an IEP or 504 plan that requires specific food related accommodations, the School District shall provide the accommodation as required by law, seeking clarifying medical information, as necessary.

A special dietary request will be approved and implemented upon submission of a completed authorized Medical Statement.

Notification

Parents will be notified of clarifications needed or approval of a special dietary request.

Student Absence

If a student receiving a special dietary accommodation is absent or does not wish to participate in school lunch on a day an accommodation is planned, contact the Food Service Director or Special Dietary Accommodation Coordinator by 9:00 a.m. [or enter a time] the same day.

Renewing A Special Dietary Request

An authorized Medical Statement does not need to be updated annually. However, the Food Service Director or Special Dietary Accommodation Coordinator may annually seek clarification or updates on special dietary requests.

Discontinuation of a Special Dietary Request

A special dietary request or part of a request may be discontinued by a parent by submitting the request in writing to the Food Service Director or Special Dietary Accommodation Coordinator.

The District may provide a student with a substitute meal without any certification provided that the meal still meets the USDA meal pattern for reimbursement.

Meal Charges

Lunches sold by the school may be purchased by students and staff members and community residents in accordance with the rules of the District's school lunch program.

The operation and supervision of the food-service program shall be the responsibility of the District Administrator. Food services shall be operated on a self-supporting basis with revenue from students, staff, Federal reimbursement, and surplus food. The Board shall assist the program by furnishing available space, initial major equipment, and utensils. Maintenance and replacement of equipment is the responsibility of the program.

A periodic review of the food-service accounts shall be made by the District Administrator. Any surplus funds from the National School Lunch Program shall be used in a manner permitted by law as determined by the District Administrator. Surplus funds from a-la-carte foods purchased using funds from the nonprofit food service account must accrue to the nonprofit food service account.

Bad Debt

Bad debt incurred through the inability to collect lunch payment from students is not an allowable cost chargeable to any Federal program. Any related collection cost, including legal cost, arising from such bad debt after they have been determined to be uncollectable are also unallowable. District efforts to collect bad debt shall be in accordance with Policy 6152 - Student Fees, Fines, and Charges.

Bad debt is uncollectable/delinquent debt that has been determined to be uncollectable no sooner than the end of the school year in which the debt was incurred and after the District Administrator determines that sufficient reasonable effort and approaches to collecting the debt have been made.

If the uncollectable/delinquent debt cannot be recovered by the School Meals Program in the year when the debt was incurred, then this is classified as bad debt. Once classified as bad debt, non-Federal funding sources must reimburse the NSFS for the total amount of the bad debt. The funds may come from the District general fund, State or local funding,

school or community organizations such as the PTA, or any other non-federal source. Once the uncollectable/delinquent debt charges are converted to bad debt, records relating to those charges must be maintained in accordance with the record retention requirements in 7 C.F.R. 210.9(b) (17) and 7 C.F.R. 210.15(b).

Negative Account Balances

No student will be permitted to purchase any meals for which the student does not have sufficient balance in their food service account or sufficient cash on their person to purchase the food items.

Students receiving paid or reduced-price lunch who do not have sufficient account balance or cash on hand to purchase a meal will be provided an alternative meal that meets the USDA guidelines applicable to alternative meal options. The District Administrator shall, in coordination with the District's food service, assure that any alternative meals that are provided meet the requisite USDA guidelines for alternative meals. The cost of the alternative meal will be added to the delinquent account.

This policy and any implementing guidelines shall be provided in writing to all households at the start of each school year and to households transferring to the school or School District during the school year. The policy and implementing guidelines will also be provided to all District staff with responsibility for enforcing the policies. The policy and guidelines will be posted on the District website.

The food-service program may participate in the "Farm to School Program" using locally grown food in school meals and snacks.

No foods or beverages, other than those associated with the District's food-service program, are to be sold during food-service hours.

The District's food service program shall serve only food items and beverages determined by the Food Service Department to be in compliance with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition guidelines. Any competitive food items and beverages that are available for sale to students a la carte in the dining area between midnight and thirty (30) minutes following the end of the school day shall also comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition guidelines, and may only be sold in accordance with Board Policy 8550 - Competitive Food Sales. Foods and beverages unassociated with the food-service program may be vended in accordance with the rules and regulations set forth in Board Policy 8540 - Vending Machines.

The District Administrator will require that the food service program serve foods in the schools of the District that are wholesome and nutritious and reinforce the concepts taught in the classroom.

The District Administrator is responsible for implementing the food service program in accordance with the adopted nutrition standards and shall provide a report regarding the District's compliance with the standards at one of its regular meetings annually.
